

Do you have NHS-supplied walking aids that you no longer need?

Sherwood Forest Hospitals Trust would be grateful for their return as part of their new
Reuse and Recycle Scheme

**You can drop them at Balderton Parish Council,
Balderton Village Centre, Coronation Street
on Saturday 28th February
from 10am - 12noon**

In 2023-2024 Sherwood Forest Hospitals Trust issued over 13,000 walking aids, the carbon footprint of these being the equivalent of driving from London to Edinburgh and back 491 times. Many of them were never returned to the Trust.

The Trust has launched the walking aid reuse and recycle scheme. You can return unused metal walking aids such as crutches, sticks and frames. The equipment is safety checked, repaired, and reissued where appropriate, or recycled when not safe for reuse.
